

# Report for Julius Caesar

2022-01-19

## This is an Example of a dinamic report

The first name is: Julius

The last name is: Caeesar

This lets you print: *Yet another text.*

The square root of **seven** is 2.64575.

You can also pass on pre-formatted rmarkdown text, like we are doing here with this bullet point:

- Just another bullet on a list
